EXPERIENCE

Freelance Fullstack Developer | Remote

July 2023 – present

- Worked on multiple freelance projects for various clients.
- Delivered custom web and bot solutions, managing tasks across different clients and deadlines.

Fullstack Developer (Remote) | Maroset

July 15, 2023 – March 8, 2025

- Developed a feature-rich Telegram bot to streamline the job application process.
- Built a companion web application for admins to manage jobs, users, and companies.

PROJECTS

- **Maroset Platform**

Developed a Telegram bot to streamline the job application process and a companion web-based admin panel to manage jobs, users, and companies. Built and maintained over time with ongoing feature updates based on client needs.

- **Udemy Bot**

Created a Telegram bot that delivers free Udemy courses based on user preferences, fetching the latest course coupons automatically.

- **Udemy Website**

Built a searchable website that displays free, up-to-date Udemy course coupons via a custom API. Designed to complement the Udemy Bot and offer a user-friendly browsing experience.

- **Freshman Bot**

An AI-powered educational Telegram bot for university students. Lessons include AI-summarized notes and quizzes, helping users learn and retain content efficiently while tracking their progress.
